Re: **Danoher**  
**Letter of Recommendation**

To whom it may Concern.

We are writing this letter to highly recommend Danoher as a specialist aggregate blasting, crushing and screening contractor. During my tenure with Group Five Construction and currently with WBHO Construction have worked with the Danoher Crushing (formally ownership of B&E International) for past twenty one - (21) years.

Some of the projects, to name a few in which they subcontracted the blasting, crushing and screening of aggregates were:

- Sterkspruit to Tellebridge
- Engcobo to Idutywa
- Senekal to Paul Roux
- Senekal to Vaalpenspruit
- Nasrec N17
- Strydenburg to Hopetown
- Penhoek Pass

I have known them to be very successful in several huge projects directly for SANARAL.

They have worked in challenging environments, tight schedules and within tight budgets with a high drive for quality product delivery. They have worked in limited or restricted areas within built up areas or near high voltage power, lines and have always provided dedicated, highly professional teams that has worked to the highest safety standards without a single reported incident. Danoher's staff is professional, pleasant to work with and has excellent relationships with both principle contractors, consulting engineers, clients and the public.
